

WiiM Pro Plus

An affordable audiophile-grade streamer without needing an additional external DAC

The WiiM Pro Plus stands out as a heftier and sturdier iteration compared to the original WiiM Pro. It boasts enhancements such as an upgraded DAC (AKM 4493SEQ), a low-noise clock, refined power and circuit design, and introduces a new Analog to Digital Converter (ADC) for the rear line-in connection.

The WiiM Pro Plus offers a dual-band wi-fi and Bluetooth 5.1 (with SBC and AAC codec compatibility), Chromecast is built in, Apple AirPlay 2 is available too, and the WiiM Home App has support for Spotify Connect, Tidal Connect, Qobuz, Deezer, Amazon Music, Pandora, TuneIn and plenty more alternatives.

Physical

- LED: Three-color status LED - Red, Green, and White
- Touch control: 1x music preset, play/pause, volume up or down, or prev/next track

Weight Dimensions (H x w x D)
0.88lbs (400g) 140x140x42mm (5.5x5.5x1.6 inch)

Remote Ccontrol Dimensions: 6.6x2x0.6 inches
